

## Realmkin

White Paper (Lite Version)

Solana-Based NFT Card Game | PvE Battle System | Earn \$MKIN

---

## Introduction

Welcome to the Realm

Own your power. Summon your WardenKin. Shape the forgotten into your legacy.

Enter a world where forgotten warriors rise again to reclaim the Realm — through battle, strategy, and unstoppable grind. Level up. Earn \$MKIN. Dominate the Void.

---

## The Realm, The Kin & The Void

The Realm is a vast world where ancient WardenKin once thrived in harmony.

WardenKin are powerful souls — NFT warriors summoned by you to fight, grow, and shape the new order.

The Void is the battlefield — a chaotic PvE arena where WardenKin battle endlessly to gain XP, earn kill coins, and climb the leaderboard.

---

## Gameplay Overview

Card-Based PvE Combat

Players summon WardenKin NFTs into The Void to battle continuously. Each fight earns:

XP – used for leaderboards and progression

Kill Coins – convertible to \$MKIN

Fusion System

Players can temporarily fuse any number of NFTs into a single custom-named character before each battle. This gives more power but resets after battle.

#### Revival Mechanic

Characters "die" randomly in battle and re-enter after a cooldown. No pause. No reset. The war never ends.

---

#### \$MKIN Token

Utility: In-game rewards, upgrades, and swaps

Claim System:

Holders earn \$MKIN weekly

Rewards can be claimed anytime

Letting them accumulate yields higher value

Conversion: \$MKIN can be swapped into SOL

Total Supply: To Be Announced
